## REVELLE PREPARES "CLEAN-UP" HINTS

### State Insurance Superintendent Aids Movement as One Close Akin to Fire Prevention

Jefferson City, Mo., April 8.—"Clean up" suggestions prepared by the State Insurance Department will be circulated over Missouri this week for use in the general cleaning-up movement.

State Superintendent of Insurance Revelle regards the movement as close akin to his fire prevention propaganda which has for its object to reduce fire insurance rates.

The suggestions follow:  
Have you not said of some neighbor's place that it was littered with filth, and forgotten to look around and clean up your own place?

Go at once, look over your home and clean out all trash.

Go to your barn or other buildings clean up and see that hereafter they are kept clean.

Haul away and burn all that old rubbish, and watch the fire while you are doing it. See that it is out before you leave.

If your neighbor asks you what you are doing, tell him, "cleaning up," and to go do the same.

Tell him you are going to help reduce the fire rates by reducing the hazard of risks.

Tell him you are tired of helping pay other people's losses and that the insurance companies are not paying the losses, but it comes out of the pockets of the insured.

Tell him you are going to help put down the per capita loss, which is \$3 in the United States against 33 cents in Europe.

Get the men and women together in your community and

have them organize for fire prevention.

Advise them to look after the chimneys and see that they are clean before putting up stoves.

See that ashes are not put in wooden boxes or barrels.

See that straw or hay or other inflammable material is not piled close to or against buildings.

The more debris and rubbish removed from the premises of citizens, Superintendent Revelle says, the less fire risk there will be.

### FUNERAL OF CHAS. FOWLER

Funeral services for the late Charles Fowler were held at the M. E. Church, South, Wednesday afternoon. There was a large attendance of citizens and friends.

The service was in charge of Revs. W. A. Todd, J. B. Jordan and W. M. Wainright and was very impressive. Members of the class of 1909 of the Monett high school acted as pall bearers. The young men were Edgar Bear, Edwin Johnson, Ernest Ferguson, Payton Gulick, John and James Harrigan. The young ladies acting as honorary pall bearers were Misses May Randolph, Neva Overton, Sara Watson, Mesdames Preston Brown, Chas. McCracken and Edwin Johnson.

### ANOTHER FREEZE

The temperature Wednesday night went to 24, which was two degrees colder than the night before. The night was still and clear and a heavy frost undoubtedly damaged the fruit crop a great deal.

### ATTENTION APPLE GROWERS

Apple scab took the fruit off clean from thousands of acres of apple trees in the year 1912. Hundreds of orchards of forty acres and more stood without a single apple or leaf for that matter at picking time because of the attacks of this fungus.

Weather conditions are exactly favorable for its growth again this spring. Get in right now, before full bloom, and put on lime sulphur at the rate of one gallon to twenty-five gallons of water, if you want to harvest this year's crop yourself. Spray same strength again when the bloom starts to fall, but add four pounds of arsenate of lead to each hundred gallons. Finish before bloom end closes.

Bad weather is bad enough, sometimes, but blame yourself and not dry weather if you fail to get fruit this year. Wire or write this office for further information.

JOHN BLAND, Secretary.

## BRAD'S BIT O' VERSE

BY J. C. BRADSHAW

### SIR ISAAC NEWTON

Sir Isaac Newton is the man who gets my approbation. When'er his brilliant life I scan, I'm lost in admiration. He saw the ripe Ben Davis fall; then scipping o'er the garden wall, he figured out that problem tall, the law of gravitation. And then, to prove there was no dearth of wisdom in his makeup, he tackled things not of this earth, just like a modern Jacob. He reasoned out how each lone star could trail the void of space afar and make its rounds without a jar or planetary shake up. Sir Isaac made no noise or fuss about his chosen labor. He envied not Copernicus or any other neighbor. He claimed no long haired minstrel's rhyme, he found content in thought sublime, he kept a smiling all the time, and daily pushed his Faber. How many men before his day had watched the apples falling, and then passed on to spend their pay in idleness and stalling. How many still pass up their chance or give it but a fleeting glance, then go their way with song and dance, and miss life's noblest calling.

The moving proposition is one that confronts everybody—especially in the spring when you change things around in your home. Bob Callaway is moving more furniture this spring than has ever been handled in Monett. If you need anything he has it for you.

## LIFE

### Is What YOU MAKE It

IT CAN BE A SUCCESS OR A FAILURE.  
WHICH WILL IT BE WITH YOU?

Look at the men who are successful in the eyes of the world. Ninety-nine out of every hundred started a bank account when they were young—AND STUCK TO IT.

And now, look at the failures. Mighty few of them have a bank account NOW. Not speaking of when they were young.

Perhaps you think you have not enough money to start an account. Haven't you a dollar? That's all it takes.

Just try it for a year or six months. If you do not wish to continue it you have lost nothing by the trial.

WHICH WILL IT BE—SUCCESS OR FAILURE?

IT'S UP TO YOU.
